

Expression Tree Construction Trace

Data Structures & Algorithms Execution Report

Target Postfix Expression: 8 3 2 * + 6 2 / -
Final Root: -

ALGORITHM EXECUTION TRACE

Token	Operation & Stack State
8	Create node 8 and push to stack.
3	Create node 3 and push to stack.
2	Create node 2 and push to stack.
*	Pop 2 and 3, create * node with 3 (left) and 2 (right); push result.
+	Pop * and 8, create + node with 8 (left) and * (right); push result.
6	Create node 6 and push to stack.
2	Create node 2 and push to stack.
/	Pop 2 and 6, create / node with 6 (left) and 2 (right); push result.
-	Pop / and +, create - node with + (left) and / (right); push final root.

RESULTING EXPRESSION TREE
